HEAP Annual Report
September 2018-September 2019
San Mateo County Human Services Agency
Section 5

1. Describe how HEAP funds have contributed to your Continuum of Care making progress towards local homelessness goals (e.g. additional services provided, capacity created, systems building, investments made, lower waitlists, etc.)

San Mateo County's Continuum of Care, led by the San Mateo County Human Services Agency (HSA), established planned usage of HEAP funds in compliance with HEAP requirements and in alignment with the community's strategic plan on homelessness and with emerging local needs. The goal of the community's strategic plan is to reach a functional zero level of homelessness by creating a cohesive homeless crisis response system, investing in best practices, and reorienting the homeless system towards housing crisis response. HEAP funding is providing opportunities to implement pilot programs to help address specific challenges and fill gaps, to add new services to improve outcomes, and to complete one-time projects to improve program facilities.

As part of the process to determine how HEAP funds would be utilized locally, HSA requested feedback from stakeholders, such as cities, safety net and homeless service providers, and County agencies that serve people at risk of or experiencing homelessness.

HEAP funds are being utilized to support a wide variety of programs helping people who are experiencing homelessness to return to housing as quickly as possible and also programs that help people who are at risk of homelessness to maintain their housing and not become homeless. Examples of services being funded with HEAP include additional rapid re-housing services, new street outreach programs, housing voucher navigation services, new housing search support services, emergency financial assistance for housing costs, and diversion services. HEAP funding is also being utilized for shelter facility projects to promote safe, habitable, and welcoming living environments for the clients they serve. One of these shelter facility projects is utilizing HEAP funding towards a project to add additional bed capacity to a shelter that serves adults and provides housing-focused case management services (also known as a navigation center).

2. Describe how HEAP funds have contributed to your Continuum of Care making progress towards local youth homelessness goals (e.g. additional services provided, capacity created, systems building, investments made, lower waitlists, etc.)

HSA works collaboratively with community partners to ensure that there are services available to assist youth who are at risk of or who are experiencing homelessness. HSA has a strong partnership with StarVista, which is a local community-based organization that has a long history of providing services to youth who are experiencing homelessness, as well as providing other safety net and mental health services. HSA provides funding to StarVista's transitional shelter, which is tailored to the needs of transition aged youth, however, prior to HEAP funding, there had not been a rapid re-housing program that was tailored to transition aged youth. With HEAP funding, HSA is expanding the community's existing rapid re-housing program portfolio by funding a rapid re-housing program specifically for youth. This rapid re-housing program aligns with the best practices of rapid re-housing with youth-centered, culturally sensitive services. StarVista will be operating this program, expanding upon its existing services. StarVista has already begun participating in rapid re-housing training and technical assistance provided by HSA in order to implement a program that will have the most significant impact possible on ending youth homelessness. This new rapid re-housing program adds an important new component to the homeless crisis resolution system to provide new intensive services to house youth who are experiencing homelessness.

3. Describe the alignment between HEAP-funded activities and “Housing First” principles (as defined in [Welfare and Institutions Code section 8255](#)).

HSA and its community partners are committed to a Housing First approach throughout the homeless crisis response system. Housing First is a foundational strategy in the community's strategic plan on homelessness, since it is so critical in the work to reach a functional zero level of homelessness. Housing First is included as a requirement in HSA Requests for Proposals (RFP) and contracts for homeless services.

One key goal of the community's Coordinated Entry System (CES) is to ensure that every household is assisted with connecting with permanent housing as quickly as possible and that households with long histories of homelessness and highest barriers are prioritized for the available programs that provide intensive housing support, such as permanent supportive housing and rapid re-housing programs. Emergency and transitional shelters, outreach programs, rapid re-housing programs, and permanent supportive housing programs have low barriers to program entry and provide housing-focused case management services to help each client return to housing as quickly as possible. HEAP-funded housing services are accessed via CES, in order to ensure they are fully integrated into the homeless crisis response system and to ensure that they are serving clients with the highest needs.

Over the past several years, HSA has also worked closely with community partners and providers to support Housing First implementation in all homeless

service programs by providing training and technical support to each provider agency to help them deepen their implementation of Housing First in all programs and to provide support as providers are doing this work in the very challenging local housing market.

4. Please provide any additional feedback on the impact of HEAP funds that you would like to share with the Homeless Coordinating and Financing Council. (Optional)

HEAP funding is providing important opportunities to implement one-time projects and to pilot new approaches and service models to help meet some of the significant challenges that our community is facing.

5. Additional Comments

Since this report is only able to include information as of September 30, 2019, it's important to note that there has been significant progress in obligating HEAP funds since September 30. As of the end of December 2019, over \$3.4 million of HEAP funds have been obligated.
