Section 3: Outcomes

Outcome data is for project types funded by HEAP. For the tables asking for the numbers of participants in each project or project type, one participant may be counted in more than one column.

The number in the "Total" column, however, should be of the number of unduplicated individuals as opposed to the sum of the numbers in that row.

Section 5: Qualitative Assessment

1. Describe how HEAP funds have contributed to your Continuum of Care making progress towards local homeless goals (e.g. additional services provided, capacity created, systems building, investments made, lower waitlists, etc.)

HEAP funds have been used to expand a low-barrier shelter in Nevada County, as well as expand the same shelter to operate a Recuperative Care dorm that offers a safe space for homeless individuals to recuperate from injuries and illnesses thus preventing the worsening of these health issues. Funds have also been used to renovate a transitional housing facility, transforming it into new permanent supportive housing units. Additionally, funds have been awarded to agencies providing homelessness prevention to households and individuals at risk of homelessness. HEAP funds have also been utilized to help an existing emergency shelter purchase a commercial-grade refrigerator and freezer.

2. Describe how HEAP funds have contributed to your Continuum of Care making progress towards local youth homelessness goals (e.g. additional services provided, capacity created, systems building, investments made, lower waitlist, etc.)

Whole Person Learning has established the first TAY Housing Collaborative in Placer County, joining all providers of TAY housing assistance. In September, 18 agencies were represented. A continuum of housing assistance specific to youth has now been created, and a formalized matrix has been established to increase knowledge of and access to supportive service. A Multi-Agency Authorization has also been established to assist in coordinating services and generating referrals for youth-specific financial housing and/or employment assistance. The Friendship Club, an organization in Nevada County, has used HEAP funds to serve 25 youth, offering ongoing case management services and resource coordination. This agency has provided food, clothing, and school supplies, as well as connecting them to mental/physical health care. Additionally, services have been offered to connect youth to employment services, clothing, college enrollment assistance and other benefits that may be available to homeless youth. The Friendship Club has also used funds to help youth with any move-in costs, resulting in [REDACTED] obtaining housing.

3. Describe the alignment between HEAP-funded activities and "Housing First" principles (as defined in Welfare and Institutions Code section 8255).

Agencies funded through HEAP are providing shelter and permanent housing utilizing the Housing First principles to lower and eliminate barriers whilst providing clients with resources and access to services. For instance, The Friendship Club meets youth where they are at, with no pre-conditions on sobriety or substance use abstinence. Youth are served with a strengths-based empowerment and positive youth development methodology. Trauma informed care and culturally competent best practices are employed, serving all youth regardless of gender identity, sexual orientation, disability, and/or racial or ethnic identity. Emergency shelters operate using Housing First methods, not excluding individuals based on sobriety. All people are provided shelter, space permitting.

4. Please provide any additional feedback on the impact of HEAP funds that you would like to share with the Homeless Coordinating and Financing Council. (Optional)
