V. Resolution: Individuals with Lived Expertise in Shared State Work
Why do we focus on lived expertise of homelessness?

When we seek, value, and make decisions to reflect the perspectives of people who have direct, experiential knowledge of homelessness, we are both increasing the likelihood that those we intend to serve are done so in the ways that are most helpful.

- To be more inclusive and promote civic engagement among all community members
- To pursue and deepen our work toward racial equity
- To deepen our commitment to one of our principles to enable center the voices of people with lived experiences of homelessness across all systems to improve decision-making, and activities
What do we mean by incorporating lived expertise?

- **Peer support and staff** roles to support people navigating services; including acting as a translator (Example: health ambassadors)
- **Co-implementation and co-design of programs and services** through sharing and determining clear roles and power among mix of people including state staff, local partners, TA providers, and other partners with lived and other forms of expertise of homelessness (Example: HHAP and other state programs which require input from people with lived expertise)
- **Research and knowledge building** roles such as participatory policy analysis and/or research where those who are being studied work not with but as researcher to design, implement, and develop findings to research (Example: HHS/UCSF Survey)
- **Leadership roles** through serving in executive positions, on governing boards, and on committees that can shape the guiding policies, direction, process, and outcome of efforts (Example: state entity and departmental leaders)
- **Advisory bodies and committees** to provide input on identifying and addressing issues and objectives; tend to be semi-permanent (like boards that are not fixed) and episodic like focus groups (Examples on next slide)
Cal ICH efforts for Lived Expertise

Advisory Board to the Council: Advise on council work, initiatives, and decisions; statutorily identified and required

Lived Experience Advisory Board (LEAB): Request for Proposal (RFP) released and once established will Inform council of issue, and support Cal to issue guidance to grantees, and guide local communities in local planning

Working Groups: Including people with lived expertise where possible within topics (e.g., Racial Equity Working Group, Youth and Young Adult, Employment, Re-entry/Transitions)

Statutory Changes for Increasing Engagement: Prioritization for people currently or formerly experiencing homelessness not compensated through an organization

SB 197 (2022) “Members of the advisory committee and any council working group shall receive a per diem of one hundred dollars ($100) for each day spent in attendance at advisory committee meetings, and shall also be reimbursed for traveling and other expenses necessarily incurred in the performance of official duties”
Council Discussion

What are the best practices that are happening in your departments already related to engaging people with lived expertise of homelessness?
