Section 3: Outcomes

Outcome data is for project types funded by HEAP. For the tables asking for the numbers of participants in each project or project type, one participant may be counted in more than one column.

The number in the "Total" column, however, should be of the number of unduplicated individuals as opposed to the sum of the numbers in that row.

Section 5: Qualitative Assessment

1. Describe how HEAP funds have contributed to your Continuum of Care making progress towards local homeless goals (e.g. additional services provided, capacity created, systems building, investments made, lower waitlists, etc.)

The CoC, City of Sacramento and Sacramento County collaborated on development and implementation of HEAP funded programs. The programs developed were intentionally designed to fill critical gaps and to enhance movement through existing programs. The City and CoC focused on two core components with HEAP investments: shelter and re-housing. Shelters funded served both to expand capacity and to pilot new system changes that the City, County and CoC are folding into all shelter programs (low barrier entry via outreach, intensive wrap around services, and focus on re-housing). Similarly, the re-housing programs created through HEAP both expand housing options for people experiencing homelessness, but also allow flexible funds to make existing housing programs (CoC funded and others) more flexible and efficient, by paying landlord incentives, creating damage funds, and funding housing location experts.

The HEAP funds have expanded the County funded Emergency Family Shelter Capacity by a total of 7 family units per night which increased the total capacity from 33 families nightly to 40. The HEAP funds have also allowed to begin the expansion of the County funded Scattered Site shelter services for single adults from 75 beds to 115. The expansion for shelter capacity for singles and families ensures this continuum can provide more shelter to some of the most vulnerable in the Sacramento Continuum. Additionally, through the use of HEAP funds the expansion will provide more intensive case management and housing services by expanding the Flexible Housing Pool. This expansion provides case management and housing assistance that includes property related services and limited term subsidies to persons experiencing homelessness who have faced multiple challenges in securing and maintaining stable housing. This will seek to provide these services to over 600 persons within the funding timeline.

2. Describe how HEAP funds have contributed to your Continuum of Care making progress towards local youth homelessness goals (e.g. additional services provided, capacity created, systems building, investments made, lower waitlist, etc.)

As with the general HEAP funds, the City of Sacramento, CoC and County collaborated to develop strategies for HEAP youth investments. Prior to the application to the State, the City, CoC and County invited ideas from youth serving partners, who know best the gaps in services for youth experiencing homelessness in Sacramento. We aimed to touch both crisis services and re-housing through HEAP and also took the opportunity to pilot a new approach. In partnership with youth partners, HEAP has allowed the creation of 12 new shelter beds for youth, allowed Sacramento to pilot a new "host homes" program and expanded re-housing services and funding for youth both directly from the streets and from shelters. The HEAP funds have expanded the County funded Emergency Family Shelter Capacity by a total of 7 family units per night which increased the total capacity from 33 families nightly to 40.

3. Describe the alignment between HEAP-funded activities and "Housing First" principles (as defined in Welfare and Institutions Code section 8255).

HEAP-funded activities incorporate housing first practices as a fundamental part of the service. Examples of how housing first is incorporated include:

- All of the investments made by the City of Sacramento under HEAP comply with Housing First principles both in their approach to access, but also in terms of how they deliver services. One of the critical components of HEAP (and CESH) was allowing the City, County, and CoC to invest in shelters both monetarily and with increased technical assistance. We have developed shelter standards to be applied to all HEAP funded shelters and consistent and transparent reporting requirements that ensure that all shelters are serving people directly from the streets based on vulnerability and working to connect them with all necessary services and housing.
- For the Family shelter system, DHA operates a bed reservation system based on family vulnerability. Families with the most significant issues and vulnerability are prioritized for sheltering services. In the past two years, housing first practices include allowing family pets into the shelter.
- The scattered site sheltering program of the County also specifically targets vulnerable unsheltered persons or households, as well as individuals living in encampments who have not engaged in traditional shelters because of barriers. Operating within a single family home, the scattered site model allows pets, partners, and possessions into the shelter, facilitating acceptance and placement into services.
- Recently, the City and County collaborated on two of the largest single shelters in the River District to improve housing first practices, including low barrier entry and housing focused services. For the first time, the City and County used the same shelter standards to clarify the approach. Working with TAC, we have recently held stakeholder input sessions (funders, providers and consumers) to improve and build acceptance. Also key is the population focus on the surrounding neighborhood in the River District of unsheltered persons with engagement and invitation of person who have significant barriers to housing stability. Based on an RFP solicitation, these shelters have new operators and the City/County will continue engagement as these shelters transform.
- The Flexible Housing Pool will offer re-housing services and case management to persons referred from Adult Protective Services, Jail diversion pilot, outreach programs, and shelters. Referral partners are encouraged to refer the highest barrier households. Both types of service providers - intensive case management and property related services - work with the participants no matter their challenges until a stable housing situation is attained. Case managers from provider organizations have received a multi-month training in best practices, including trauma informed care and housing first. Staff are closely monitoring data and have committed to regular reporting to tell the community the benefits of low barrier, housing first oriented programs.

4. Please provide any additional feedback on the impact of HEAP funds that you would like to share with the Homeless Coordinating and Financing Council. (Optional)

We appreciate the flexibility of the HEAP funds and HCFC staff guidance and support.
