Section 5: Qualitative Assessment

1. Describe how HEAP funds have contributed to your Continuum of Care making progress towards local homeless goals (e.g. additional services provided, capacity created, systems building, investments made, lower waitlists, etc.)

HEAP funds have provided our CoC with the opportunity to make genuine progress toward local homeless goals- including , but not limited to, much needed shelter and housing inventory, rapid rehousing and rental assistance, and outreach. This has allowed for expansion/continuation of some of the most important resources for our community. Due to the scarcity of housing, one of our main priorities for our HEAP funding was the construction of local homeless shelters. As such, we were able to fund two new shelters and transitional housing in the areas with the most need - Salinas, where our largest population of chronically homeless live; Seaside, which saw an increase in persons experiencing homelessness despite the overall number of homeless individuals decreasing in the county; and San Benito County, whose housing inventory for persons experiencing homelessness prior to HEAP funds was one emergency shelter. However, we did not want to solely fund capital projects for shelter and transitional housing without also ensuring there would be services to support a pathway to permanent housing and supportive services. With that in mind, we were also able to fund some of our most trusted partners to provide complimentary services. Additionally, we were able to launch and expand outreach teams for youth and adults. This will be the first youth outreach team to include Monterey's south county, thereby extending the reach of the Coalition to ensure equal services throughout our two counties. Not only does the creation and expansion of these teams help to serve their designated populations, but allows for greater outreach capacity throughout the region. It is with these funds that our CORE (Coordinated Outreach & Resources for Encampments) team is being developed. Teams that have lacked the capacity to provide service to our most vulnerable, unsheltered populations now have a little more support to provide much needed outreach and resources for our community. In our efforts to create a holistic system, we also expanded our rapid rehousing programs, which prevent some individuals and families from falling into or deeper into homelessness.

2. Describe how HEAP funds have contributed to your Continuum of Care making progress towards local youth homelessness goals (e.g. additional services provided, capacity created, systems building, investments made, lower waitlist, etc.)

Factors that lead to youth homelessness are such a multi-faceted intricacy, however, with our HEAP funds we are able to gain a better understanding of their needs. In both counties, HEAP granted the ability to create outreach teams. These outreach teams are equipped to not only gain a better understanding of situations unaccompanied homeless youth find themselves in, but allows for our service providers to administer much needed guidance for these youth, beyond a simple referral to a resource they can connect with. Our youth outreach programs provide street outreach and include case management services in a comfortable and non-threatening setting. In the initiation of these projects, we are able to expand access to support for unaccompanied youth to prevent and address homelessness while also building trust within the youth community and open the door to more outreach in the future.

3. Describe the alignment between HEAP-funded activities and "Housing First" principles (as defined in Welfare and Institutions Code section 8255).

Throughout the process of funding, our CoC has kept Housing First principles at the foreground as evidenced by the projects that were selected. Our new and expanded projects include low-barrier shelters, services for the most vulnerable, and coordination through our Coordinated and Assessment Referral System (CARS). All of our capital projects will function without judgement or conditions, as part of their contractually obligated language includes Housing First principles. Our services and outreach projects prioritize the chronically homeless without scrutiny or discrimination and our rapid rehousing programs support Housing First through our referral system.

4. Please provide any additional feedback on the impact of HEAP funds that you would like to share with the Homeless Coordinating and Financing Council. (Optional)

Although Housing First is a federally recognized principle, the reality is that policy restrictions such as these can also have unintended complications. As an example, recovery and treatment programs are weakened when active use by some residents is visible and evident. While having Housing First resources available is essential, not all projects have the ability to function under a blanket policy. Programs need to be able to support the variety of sub-populations experiencing homelessness - which is why Housing First programs are critical resources in the Continuum of Care to serve those who are challenged with programs that have conditions such as sobriety - but this is not effective in all programs. Addressing homelessness requires flexibility due to the intersectional nature of the topic and those exposed to it. People are amalgamations of their experiences, each person experiencing life in a completely unique way. It is due to that variation that requires delicate and specific (intervention/initiatives) in order to truly understand and help a population experiencing extreme hardship. There are multitudes of methodology from which to employ and there is merit in requiring best practices be utilized, but just as other best practices are suggested for inclusion, so should it be for Housing First.

ADDITIONAL COMMENTS:

The Monterey/San Benito County CoC truly honors, respects, and appreciates the leadership of the State of California for appropriating these valuable and needed resources to address the challenge of too many Californians who find housing and shelter out of reach.
